## (54) Title: COOLER STRUCTURE FOR SURFACE COOLING

(57) Abstract: A cooler structure (1) for use in cooling a surface (such as a vehicle windscreen) has a backing panel (2) and, supported on the backing panel, cooling medium (30) in heat transfer relationship with the backing panel (2). The structure (1) may have a displacable flap (15) or the like through which a target zone of the surface may be accessed. The displacable flap (15) or the like may carry cooling medium (30).
